High, Mamobi.
Accra, Ghana

Experience

Insurerity Digital ltd
March 2021 - August 2021

Mobile app developer - student intern (Remote)

Created a mobile application which allows tertiary students register for insurance packages with Insurerity Digital. (<https://insurerity.com/products/student-insure>)

Hypacart
August 2020 - September 2020

Web developer - student intern (Remote)

Built some parts of the user interface for the hypacart online market website. (<https://hypacart.com/>)

Bismuth Technologies
October 2021 -

Co-founder & CTO

Bismuth is a tech startup. At Bismuth I manage and work alongside other developers. We create website and mobile application solutions for our clients as well as working on building our own products. (<https://bismuthinc.com/>)

Education

**Kwame Nkrumah
University of Science and
Technology**
August 2017 - September 2021

BSc Computer Science

KNUST has equipped me take on audacious problems, bring imaginative new approaches to solving them, and work collaboratively to advance knowledge and make meaningful contributions to our world.

Projects

Resumfolio Resume Builder App

Resumfolio is a mobile application for creating resumes/CVs easily and in record time. CV or Resume is the first impression while job hunting. Getting the job can be difficult without the right help and that was why I made Resumfolio.

Insurerity Digital

Tertiary Wealth Master mobile application

At insurerity, I created this product which provides students with a one-of-a-kind chance to build wealth to satisfy their short to medium term goals in college while preserving their family's income if they are called home or become permanently incapacitated.

FunHolidays

A hotel app design to help hoteliers interact with each other easily while in the hotel through in app chat with other guests and receptionists, as well as order food in the hotel

Tekcare

Collaborated with my classmates to create a mobile app for the staff of my University (KNUST).

YouTube channel

I have a YouTube channel where I teach people how to create mobile applications for Android and iOS with flutter.

Other Info

Skills

Flutter, Reactjs, Nodejs, Firebase, mySQL, MongoDB, Python, Dart, Typescript

Languages

English, Twi

Interest

Music, Travelling, Meetups
